

JOLA MUTHYA SAI VANKA

+91 6305628124 ◇ Visakhapatnam, Andhra Pradesh

Tavisca Solution Pvt Limited (Division of JPMC)

OBJECTIVE

I am a driven individual with the ability to adapt to any situation and proven potential to grow myself and others with 4 years experience

EDUCATION

Bachelor of Computer Science, Vignan's Institute of Information Technology May 2015- May 2019

Main Coursework: Data Structures, Design, and analysis of Algorithms, Computer Architecture, Database Systems, Cryptography, Operating Systems, Software Engineering, Cloud computing, and Networking, etc.

Secondary Education, Kendriya Vidhyalaya No 1 Svn Visakhapatnam 2007 - 2015

SKILLS

Programming Languages

C, Java, JavaScript

Frameworks

Spring-Boot, DotNet Core, Next.js

Test Frameworks

Xunit, Junit, Jest

Database

MongoDB, My Sql, Cassandra, Redis

DevOps

Docker, Git, Jenkins

FrontEnd

Angular, React

Cloud

AWS

Others

Jira, Consul, kibana

EXPERIENCE

Senior Software Engineer (JPMC) Jan 2023 - Present

- Designed Autosuggest Orxe 3.0 Architecture and implemented the same in the facade pattern.
- Developed Cross Products Autosuggest SDK to facilitate autosuggest to all clients.

Software Engineer Feb 2021 - Jan 2023

- Developed an Online Travel Booking Platform for our customers to quickly drive new strategies by easily connecting new data sources using Angular, Dot Net, And Spring Boot.
- Developed Cross platform booking feature which enables users to book any travel applications using Dot Net
- Developed Room Details Api using GraphQL from scratch.
- Gave a Demo on GraphQL and explained how GraphQL is effective in the case of mobile application development.

Software Developer July 2019 - Jan 2021

- Worked on Maintaining Static Content from MultipleSuppliers.
- Developed Image Quality Algorithm for Image Classification in Clarifi project

- Fixed Bugs Related To Room Mapping and Hotel Deduplication from different suppliers.

PROJECTS

Task Management Actively working on building task management application similar to clickup.com in React and Spring Boot ([Try it here](#))

Reddit Clone Built a Reddit clone using Angular and Spring Boot

ECommerce App. This Application is based on the microservices architecture built using Spring Boot and ReactJS will be renewed soon. ([Try it here](#))

2048 Game Built A project of 2048 using ReactJS. Similar to the project below will be updating the URL soon. ([Try it here](#))

EXTRA-CURRICULAR ACTIVITIES

writing my first blog regarding image quality [blog posts](#)

ACHIEVEMENTS

- Won Annual Technical Coding Fest in 2015. renewed Received Shout-out for Implementing Image Quality Algorithm and Room Mapping Algorithm.
- Received Multiple Kudos for improving Code Coverage and Fixing 15 bugs in a sprint.
- Received Spot Recognition Award for Identifying and Solving a SEV-2 Bug on Production environment.

LEADERSHIP

- Mentored New joiners and gave technical sessions on the Architecture of the project.
- Conducted Sessions on GraphQL and explained how it is effective in the case of mobile application development.
- Received Multiple Kudos for improving Code Coverage and Fixing 15 bugs in a sprint.

HOBBIES

- Reading books like Atomic Habits, Start with Why, Do it today, etc
- Playing Cricket and Basketball
